Mr. Nate A Miller
Opinion Editor
Greeley Tribune

Dear Mr. Miller: I am submitting the following letter for the letters column.

They say all politics are local politics, so the most important political race in November is in our own back yard. If you can see like I can that the future of Weld County is planning for growth, diversifying our economy, fully funding education, supporting agriculture and all it means to Weld, finding a solution to sustainable healthcare, protecting our environment, supporting infrastructure, addressing housing costs and livable wages, then you are a part of local politics.

Pick a representative that votes for your local interests -- not national organizations and big oil -- Gbenga Ajiboye for House District 48.
